

X-keys® USB Foot Pedal for DocWrite (OEM-91-DWR)

- Pre-programmed for Play, Rewind, and Fast Forward
- Rugged construction
- Hands-free control of DocWrite™ Transcription System

The DocWrite™ version of the **X-keys® USB Foot Pedal** has been pre-programmed such that it will emulate a USB keyboard and send keystrokes and key macros to any computer which supports USB keyboard. This includes all versions of Windows (98SE and newer), all versions of Mac, as well as most Unix and Linux based systems.
